Effective Date: The later of January 1, 2017 and your effective date of coverage under the Master Group Contract.

HealthPartners agrees to cover the services described below. The Benefits Chart describes the level of payment that applies for each of the covered services. To be covered under this section, the medical or dental services or items described below must be medically or dentally necessary.

Coverage for eligible services is subject to the exclusions, limitations, and other conditions of this Benefits Chart and Group Membership Contract.

Covered services and supplies are based on established medical policies, which are subject to periodic review and modification by the medical or dental directors. Covered prescription drugs are based on requirements established by the HealthPartners Pharmacy and Therapeutics Committee, and are subject to periodic review and modification. These medical policies (medical coverage criteria) and formulary requirements are available by calling Member Services, or logging on to your “myHealthPartners” account at www.healthpartners.com.

The amount that we pay for covered services is listed below. The member is responsible for the specified dollar amount and/or percentage of charges that we do not pay.

See the Membership Contract for additional information about limitations.

Network Benefits are underwritten by HealthPartners. Non-Network Benefits are underwritten by HealthPartners Insurance Company. The Non-Network Benefits constitute a non-qualified plan.

In HealthPartners Distinctions Open Access Choice, you have direct access to any Network providers listed in the HealthPartners Open Access Network provider directory.

Coverage may vary depending on whether you select a Network provider or a Non-network provider.

In addition, Network providers are divided into two levels. Your copayment/coinsurance under HealthPartners Benefits may vary, depending on what level applies to your Network provider. Benefits which vary by level are shown below. The level is applied separately to each Network provider that you see. See your provider directory to see what level applies to each Network provider.

When you use Non-Network providers, benefits are substantially reduced and you will likely incur significantly higher out-of-pocket expenses. A Non-Network provider does not usually have an agreement with HealthPartners to provide services at a discounted fee. In addition, Non-Network Benefits are restricted to the usual and customary amount under the definition of "Charge." The usual and customary amount can be significantly lower than a Non-Network provider's billed charges. If the Non-Network provider's billed charges are over the usual and customary amount, you pay the difference, in addition to any required deductible, copayment and/or coinsurance, and these charges do not apply to the out-of-pocket limit. The only exceptions to this requirement are described below in the “Emergency and Urgently Needed Care Services” section. This section describes what benefits are covered at the Network Benefit level regardless of who provides the service.

These definitions apply to the Benefits Chart. They also apply to the Contract.

- Biosimilar Drugs:** A prescription drug, approved by the Food and Drug Administration (FDA), that the FDA has determined is biosimilar to and interchangeable with a biological brand drug. Biosimilar drugs are not considered generic drugs and are not covered under the generic drug benefit.
- Brand Drug:** A prescription drug approved by the Food and Drug Administration (FDA), that is manufactured, sold, or licensed for sale under a trademark by the pharmaceutical company that originally researched and developed the drug. Brand drugs have the same active-ingredient formula as the generic version of the drug. However, generic drugs are manufactured and sold by other drug manufacturers and are generally not available until after the patent on the brand drug has expired. A few brand drugs may be covered at the generic drug benefit level if this is indicated on the formulary.
- Charge:** For covered services delivered by participating network providers, is the provider's discounted charge for a given medical/surgical service, procedure or item.
- For the Usual and Customary Charge for covered services delivered by non-network providers, our payment is based on a percentage of the Medicare fee schedule, or a comparable schedule if the service is not on the Medicare fee schedule.
- The Usual and Customary Charge is the maximum amount allowed that we consider in the calculation of the payment of charges incurred for certain covered services. You must pay for any charges above the usual and customary charges, and they do not apply to the out-of-pocket limit.
- A charge is incurred for covered ambulatory medical and surgical services, on the date the service or item is provided. A charge is incurred for covered inpatient services, on the date of admission to a hospital. To be covered, a charge must be incurred on or after the member's effective date and on or before the termination date.
- Copayment/Coinsurance:** The specified dollar amount, or percentage, of charges incurred for covered services, which we do not pay, but which a member must pay, each time a member receives certain medical services, procedures or items. Our payment for those covered services or items begins after the copayment or coinsurance is satisfied. Covered services or items requiring a copayment or coinsurance are specified in this Contract.
- For services provided by a network provider:
An amount which is listed as a flat dollar copayment is applied to a network provider's discounted charges for a given service. However, if the network provider's discounted charge for a service or item is less than the flat dollar copayment, you will pay the network provider's discounted charge. An amount which is listed as a percentage of charges or coinsurance is based on the network provider's discounted charges, calculated at the time the claim is processed, which may include an agreed upon fee schedule rate for case rate or withhold arrangements.
- For services provided by a non-network provider:
Any copayment or coinsurance is applied to the lesser of the provider's charges or the usual and customary charge for a service.
- A copayment or coinsurance is due at the time a service is provided, or when billed by the provider. The copayment or coinsurance applicable for a scheduled visit with a network provider will be collected for each visit, late cancellation and failed appointment.

Deductible:

The specified dollar amount of charges incurred for covered services, which we do not pay, but a member or a family has to pay first in a calendar year. Our payment for those services or items begins after the deductible is satisfied. If you have a family deductible, each individual family member may only contribute up to the individual deductible amount toward the family deductible. An individual's copayments and coinsurance do not apply toward the family deductible. For network providers, the amount of the charges that apply to the deductible are based on the network provider's discounted charges, calculated at the time the claim is processed, which may include an agreed upon fee schedule rate for case rate or withhold arrangements. For non-network providers, the amount of charges that apply to the deductible are the lesser of the provider's charges or the usual and customary charge for a service.

Any amounts paid or reimbursed by a third party, including but not limited to: point of service rebates, manufacturer coupons, debit cards or other forms of direct reimbursement to a member for a product or service, will not apply to your deductible.

Your Membership Contract has an embedded deductible. This means once a member meets the individual deductible, the Membership Contract begins paying benefits for that member. If two or more members of the family meet the family deductible, the plan begins paying benefits for all members of the family, regardless of whether each member has met the individual deductible. However, a member may not contribute more than the individual deductible toward the family deductible.

All services are subject to the deductible unless otherwise indicated in this Benefits Chart.

Formulary:

This is a current list, which may be revised from time to time, of formulary prescription drugs, medications, equipment and supplies covered by us as indicated in the Benefits Chart which are covered at the highest benefit level. This list is determined by HealthPartners Pharmacy and Therapeutics Committee, and is subject to periodic review and modifications. Some drugs may require prior authorization to be covered as formulary drugs. You may be granted an exception to the formulary that is available to you upon request. These guidelines and procedures include exceptions to the formulary for anti-psychotic prescription drugs prescribed to treat emotional disturbances or mental illness if your health care provider (1) indicates to the dispensing pharmacist, orally or in writing, that the prescription must be dispensed as indicated and (2) certifies in writing to us that the prescribed drug will best treat your condition. Also, you may continue to receive certain non-formulary prescription drugs for diagnosed mental illness or emotional disturbance when our formulary changes or you change health plans for up to one year following the change. We also have written guidelines and procedures for granting formulary exceptions for other drugs that are available to you upon request or on our website.

You or your provider can request an exception to our formulary. If the request is approved, the non-formulary drug you are requesting would be covered. Requests are generally reviewed and responded on the day they are requested. Decisions are made on a case-by-case basis. You or your provider can request an exception using the Prior Authorization/Exception form on our website or by calling Member Services. We review exception requests based on diagnosis, formulary medicines that you have already tried, evidence that the medicine you want to take is effective and medical necessity. If we do not approve your request, you can request an exception review, as described in the Complaints section of the contract.

The formulary, and information on drugs that require prior authorization, are available by calling Member Services, or on our web site at www.healthpartners.com.

Generic Drug:

A prescription drug, approved by the Food and Drug Administration (FDA) that the FDA has determined is comparable to a brand drug product in dosage form, strength, route of administration, quality, intended use and documented bioequivalence. Generally, generic drugs cost less than brand drugs. Some brand drugs may be covered at the generic drug benefit level if this is indicated on the formulary.

Out-of-Pocket Expenses: You pay the specified copayments/coinsurance and deductibles applicable for particular services, subject to the out-of-pocket limit described below. These amounts are in addition to the monthly enrollment payments.

Out-of-Pocket Limit: You pay the copayments/coinsurance and deductibles for covered services, to the individual or family out-of-pocket limit. Thereafter we cover 100% of charges incurred for all other covered services, for the rest of the calendar year. You pay amounts greater than the out-of-pocket limit if you exceed any visit or day limits.

Non-Network Benefits above the usual and customary charge (see definition of charge above) do not apply to the out-of-pocket limit.

Non-Network benefits for transplant surgery do not apply to the out-of-pocket limit.

Any amounts paid or reimbursed by a third party, including but not limited to: point of service rebates, manufacturer coupons, debit cards or other forms of direct reimbursement to a member for a product or service, will not apply as an out of pocket expense.

You are responsible to keep track of the out-of-pocket expenses. Contact our Member Services department for assistance in determining the amount paid by the enrollee for specific eligible services received. Claims for reimbursement under the out-of-pocket limit provisions are subject to the same time limits and provisions described under the "Claims Provisions" section of the contract.

Specialty Drug List: This is a current list, which may be revised from time to time, of prescription drugs, medications, equipment and supplies, which are typically bio-pharmaceuticals. The purpose of a specialty drug list is to facilitate enhanced monitoring of complex therapies used to treat specific conditions. Specialty drugs are covered by us as indicated below. The specialty drug list is available by calling Member Services, or on our web site at www.healthpartners.com.

Virtuwell: Virtuwell is an online service that you may use to receive a diagnosis and treatment for certain routine conditions, such as a cold and flu, ear pain and sinus infections. You may access the virtuwell website at www.virtuwell.com.

Urgently Needed Care. These are services to treat an unforeseen illness or injury, which are required in order to prevent a serious deterioration in your health, and which cannot be delayed until the next available clinic or office hours.

Emergency care also includes an immediate response service available on a 24-hour, seven-day-a-week basis for each child, or person, having a psychiatric crisis, a mental health crisis, or a mental health emergency.

When reviewing claims for coverage of emergency services, our medical director will take into consideration a reasonable layperson’s belief that the circumstances required immediate medical care that could not wait until the next working day or next available clinic appointment.

If a flat dollar copay applies to the drug, you will pay no more than one copay each 30-day supply. A 90-day supply will be covered and dispensed at a time only at pharmacies that participate in our extended day supply program. No more than a 30-day supply of Specialty Drugs will be covered and dispensed at a time. The cost of your drugs may vary depending on whether you get a one-month supply or a three-month supply. If you have the option of purchasing either, check with your pharmacist to find out which is cheaper. We have written guidelines and procedures for granting an exception to the formulary that are available to you upon request.

If a member requests a brand drug when there is a generic equivalent, the brand drug will be covered up to the charge that would apply to the generic drug, minus any required copayment. If a physician requests that a brand drug be dispensed as written, and we determine the brand drug is medically necessary, the drug will be paid at the brand drug benefit.

The member copayment for a drug will not exceed the cost of the drug.

Prescription drugs are subject to the calendar year out-of-pocket limit shown above.

If a member copayment is required, you must pay one member copayment for each 30-day supply, or portion thereof, except as follows:

For Mail Order Drugs, see benefit above.

Not Covered:

- Replacement of prescription drugs, medications, equipment and supplies due to loss, damage or theft.

Appendix D-4 - Distinctions Non-Healthy Benefits Schedule

HealthPartners DistinctionsSM Open Access Choice Benefits Chart

Master Contractholder: Ramsey County

Group Number: 12900

Effective Date: The later of January 1, 2017 and your effective date of coverage under the Master Group Contract.

HealthPartners agrees to cover the services described below. The Benefits Chart describes the level of payment that applies for each of the covered services. To be covered under this section, the medical or dental services or items described below must be medically or dentally necessary.

Coverage for eligible services is subject to the exclusions, limitations, and other conditions of this Benefits Chart and Group Membership Contract.

Covered services and supplies are based on established medical policies, which are subject to periodic review and modification by the medical or dental directors. Covered prescription drugs are based on requirements established by the HealthPartners Pharmacy and Therapeutics Committee, and are subject to periodic review and modification. These medical policies (medical coverage criteria) and formulary requirements are available by calling Member Services, or logging on to your “myHealthPartners” account at www.healthpartners.com.

The amount that we pay for covered services is listed below. The member is responsible for the specified dollar amount and/or percentage of charges that we do not pay.

See the Membership Contract for additional information about limitations.

Network Benefits are underwritten by HealthPartners. Non-Network Benefits are underwritten by HealthPartners Insurance Company. The Non-Network Benefits constitute a non-qualified plan.

In HealthPartners Distinctions Open Access Choice, you have direct access to any Network providers listed in the HealthPartners Open Access Network provider directory.

Coverage may vary depending on whether you select a Network provider or a Non-network provider.

In addition, Network providers are divided into two levels. Your copayment/coinsurance under HealthPartners Benefits may vary, depending on what level applies to your Network provider. Benefits which vary by level are shown below. The level is applied separately to each Network provider that you see. See your provider directory to see what level applies to each Network provider.

When you use Non-Network providers, benefits are substantially reduced and you will likely incur significantly higher out-of-pocket expenses. A Non-Network provider does not usually have an agreement with HealthPartners to provide services at a discounted fee. In addition, Non-Network Benefits are restricted to the usual and customary amount under the definition of "Charge." The usual and customary amount can be significantly lower than a Non-Network provider's billed charges. If the Non-Network provider's billed charges are over the usual and customary amount, you pay the difference, in addition to any required deductible, copayment and/or coinsurance, and these charges do not apply to the out-of-pocket limit. The only exceptions to this requirement are described below in the “Emergency and Urgently Needed Care Services” section. This section describes what benefits are covered at the Network Benefit level regardless of who provides the service.

These definitions apply to the Benefits Chart. They also apply to the Contract.

- Biosimilar Drugs:** A prescription drug, approved by the Food and Drug Administration (FDA), that the FDA has determined is biosimilar to and interchangeable with a biological brand drug. Biosimilar drugs are not considered generic drugs and are not covered under the generic drug benefit.
- Brand Drug:** A prescription drug approved by the Food and Drug Administration (FDA), that is manufactured, sold, or licensed for sale under a trademark by the pharmaceutical company that originally researched and developed the drug. Brand drugs have the same active-ingredient formula as the generic version of the drug. However, generic drugs are manufactured and sold by other drug manufacturers and are generally not available until after the patent on the brand drug has expired. A few brand drugs may be covered at the generic drug benefit level if this is indicated on the formulary.
- Charge:** For covered services delivered by participating network providers, is the provider's discounted charge for a given medical/surgical service, procedure or item.
- For the Usual and Customary Charge for covered services delivered by non-network providers, our payment is based on a percentage of the Medicare fee schedule, or a comparable schedule if the service is not on the Medicare fee schedule.
- The Usual and Customary Charge is the maximum amount allowed that we consider in the calculation of the payment of charges incurred for certain covered services. You must pay for any charges above the usual and customary charges, and they do not apply to the out-of-pocket limit.
- A charge is incurred for covered ambulatory medical and surgical services, on the date the service or item is provided. A charge is incurred for covered inpatient services, on the date of admission to a hospital. To be covered, a charge must be incurred on or after the member's effective date and on or before the termination date.
- Copayment/Coinsurance:** The specified dollar amount, or percentage, of charges incurred for covered services, which we do not pay, but which a member must pay, each time a member receives certain medical services, procedures or items. Our payment for those covered services or items begins after the copayment or coinsurance is satisfied. Covered services or items requiring a copayment or coinsurance are specified in this Contract.
- For services provided by a network provider:
An amount which is listed as a flat dollar copayment is applied to a network provider's discounted charges for a given service. However, if the network provider's discounted charge for a service or item is less than the flat dollar copayment, you will pay the network provider's discounted charge. An amount which is listed as a percentage of charges or coinsurance is based on the network provider's discounted charges, calculated at the time the claim is processed, which may include an agreed upon fee schedule rate for case rate or withhold arrangements.
- For services provided by a non-network provider:
Any copayment or coinsurance is applied to the lesser of the provider's charges or the usual and customary charge for a service.
- A copayment or coinsurance is due at the time a service is provided, or when billed by the provider. The copayment or coinsurance applicable for a scheduled visit with a network provider will be collected for each visit, late cancellation and failed appointment.

Deductible:

The specified dollar amount of charges incurred for covered services, which we do not pay, but a member or a family has to pay first in a calendar year. Our payment for those services or items begins after the deductible is satisfied. If you have a family deductible, each individual family member may only contribute up to the individual deductible amount toward the family deductible. An individual's copayments and coinsurance do not apply toward the family deductible. For network providers, the amount of the charges that apply to the deductible are based on the network provider's discounted charges, calculated at the time the claim is processed, which may include an agreed upon fee schedule rate for case rate or withhold arrangements. For non-network providers, the amount of charges that apply to the deductible are the lesser of the provider's charges or the usual and customary charge for a service.

Any amounts paid or reimbursed by a third party, including but not limited to: point of service rebates, manufacturer coupons, debit cards or other forms of direct reimbursement to a member for a product or service, will not apply to your deductible.

Your Membership Contract has an embedded deductible. This means once a member meets the individual deductible, the Membership Contract begins paying benefits for that member. If two or more members of the family meet the family deductible, the plan begins paying benefits for all members of the family, regardless of whether each member has met the individual deductible. However, a member may not contribute more than the individual deductible toward the family deductible.

All services are subject to the deductible unless otherwise indicated in this Benefits Chart.

Formulary:

This is a current list, which may be revised from time to time, of formulary prescription drugs, medications, equipment and supplies covered by us as indicated in the Benefits Chart which are covered at the highest benefit level. This list is determined by HealthPartners Pharmacy and Therapeutics Committee, and is subject to periodic review and modifications. Some drugs may require prior authorization to be covered as formulary drugs. You may be granted an exception to the formulary that is available to you upon request. These guidelines and procedures include exceptions to the formulary for anti-psychotic prescription drugs prescribed to treat emotional disturbances or mental illness if your health care provider (1) indicates to the dispensing pharmacist, orally or in writing, that the prescription must be dispensed as indicated and (2) certifies in writing to us that the prescribed drug will best treat your condition. Also, you may continue to receive certain non-formulary prescription drugs for diagnosed mental illness or emotional disturbance when our formulary changes or you change health plans for up to one year following the change. We also have written guidelines and procedures for granting formulary exceptions for other drugs that are available to you upon request or on our website.

You or your provider can request an exception to our formulary. If the request is approved, the non-formulary drug you are requesting would be covered. Requests are generally reviewed and responded on the day they are requested. Decisions are made on a case-by-case basis. You or your provider can request an exception using the Prior Authorization/Exception form on our website or by calling Member Services. We review exception requests based on diagnosis, formulary medicines that you have already tried, evidence that the medicine you want to take is effective and medical necessity. If we do not approve your request, you can request an exception review, as described in the Complaints section of the contract.

The formulary, and information on drugs that require prior authorization, are available by calling Member Services, or on our web site at www.healthpartners.com.

Generic Drug:

A prescription drug, approved by the Food and Drug Administration (FDA) that the FDA has determined is comparable to a brand drug product in dosage form, strength, route of administration, quality, intended use and documented bioequivalence. Generally, generic drugs cost less than brand drugs. Some brand drugs may be covered at the generic drug benefit level if this is indicated on the formulary.

Out-of-Pocket Expenses: You pay the specified copayments/coinsurance and deductibles applicable for particular services, subject to the out-of-pocket limit described below. These amounts are in addition to the monthly enrollment payments.

Out-of-Pocket Limit: You pay the copayments/coinsurance and deductibles for covered services, to the individual or family out-of-pocket limit. Thereafter we cover 100% of charges incurred for all other covered services, for the rest of the calendar year. You pay amounts greater than the out-of-pocket limit if you exceed any visit or day limits.

Non-Network Benefits above the usual and customary charge (see definition of charge above) do not apply to the out-of-pocket limit.

Non-Network benefits for transplant surgery do not apply to the out-of-pocket limit.

Any amounts paid or reimbursed by a third party, including but not limited to: point of service rebates, manufacturer coupons, debit cards or other forms of direct reimbursement to a member for a product or service, will not apply as an out of pocket expense.

You are responsible to keep track of the out-of-pocket expenses. Contact our Member Services department for assistance in determining the amount paid by the enrollee for specific eligible services received. Claims for reimbursement under the out-of-pocket limit provisions are subject to the same time limits and provisions described under the "Claims Provisions" section of the contract.

Specialty Drug List: This is a current list, which may be revised from time to time, of prescription drugs, medications, equipment and supplies, which are typically bio-pharmaceuticals. The purpose of a specialty drug list is to facilitate enhanced monitoring of complex therapies used to treat specific conditions. Specialty drugs are covered by us as indicated below. The specialty drug list is available by calling Member Services, or on our web site at www.healthpartners.com.

Virtuwell: Virtuwell is an online service that you may use to receive a diagnosis and treatment for certain routine conditions, such as a cold and flu, ear pain and sinus infections. You may access the virtuwell website at www.virtuwell.com.

Distinctions II Network

2017 PROVIDER DIRECTORY

Table of contents

This directory is a guide to the doctors, clinics and hospitals available to you in the DistinctionsSM plan. You have a large provider network available to you. Please take a few minutes to get familiar with how this plan works, so you can get the most from it.

Enrolling in the Distinctions II plan does not guarantee services by a particular provider on this list. If you wish to be certain of receiving care from a specific doctor listed, you should contact that doctor to ask whether the doctor is still a HealthPartners provider and whether or not the doctor is accepting additional patients.

Access to health care services does not guarantee access to a particular type of doctor. Please contact Member Services at 952-883-5000 or 1-800-883-2177 for specific information about access to different kinds of doctors.

THIS HEALTH CARE PLAN MAY NOT COVER ALL YOUR HEALTH CARE EXPENSES. READ YOUR MEMBERSHIP CONTRACT TO DETERMINE WHICH EXPENSES ARE COVERED.

This network is effective 1/1/2017

The plan that helps you make the health care choices that are right for you

The Distinctions II plan offers you one of the region's largest provider networks.

It's simple to get the care you need. You can see any of the doctors, clinics and hospitals in this plan's provider network without a referral. You don't need to select a primary clinic. Each time you need care, you choose where you want to go in the network.

The key difference with Distinctions is how your out-of-pocket costs (your copays and coinsurance) are determined. With this plan, what you pay for care depends on who you see for care.

Distinctions is one of the first plans to analyze and publish each provider's cost and quality of care. Using this information, we've grouped most doctors, clinics and hospitals into one of two groups, called "Benefit Levels." You'll pay less of the cost of your care (in the form of copay or coinsurance) when you see a provider in benefit level one than when you see a provider in benefit level two.

The specific amount of your copay and portion of your coinsurance within each Benefit Level depends on the benefit coverage chosen by your employer.

Here are some other important, money-saving plan facts to know:

- Use Benefit Level 1 providers when you can. The vast majority of providers are very good, but you are more likely to get better, more affordable care from a Benefit Level 1 provider.
- Know the Benefit Levels for providers in advance to avoid financial surprises later on. Your doctor may suggest you go to a particular hospital or see a particular specialist. The Benefit Level of the doctor or facility where you receive care determines what you'll pay out of pocket, not the Benefit Level of the doctor who referred you.
- Some providers are in different Benefit Levels than last year. A doctor in Benefit Level 1 in 2007 may be in Level 2 for 2008 and vice versa. This is because providers are reviewed and assigned annually to Benefit Levels based on their cost and quality of care.
- In addition to primary care providers and hospitals, four types of specialties are now assigned to Benefit Levels. These are cardiology; ear, nose and throat; obstetrics and gynecology; and orthopedics. You'll have a higher or lower out-of-pocket cost depending on which of these specialists you see. These are the only specialists categorized to Benefit Levels; all other specialties are considered to be Benefit Level 1*.
- Primary care providers and specialists working in the same clinic are not necessarily in the same Benefit Level. For example, your primary care doctor may be in Benefit Level 1 but the cardiologist located in the same clinic may be Level 2, or vice versa.
- Only certain providers are assigned to Benefit Levels. The providers grouped at these levels include only primary care providers, hospitals and the four specialties mentioned above – cardiologists, ENTs, OB/GYNs and orthopedics – in the 7-county metro area plus Rochester. These are the providers for which we have enough data to accurately assign them to Benefit Levels.

All other providers – including all outside the metro area plus specialties not listed above, regardless of their location – are considered Benefit Level 1.
- Call CareLine if you need urgent care after hours. Sometimes you can save yourself a costly visit to urgent care or the emergency room by talking with a nurse first.
- If your plan includes coinsurance for inpatient hospital charges, how you are invoiced is determined by the hospital. In some cases, you'll receive one bill for all services, and your portion (based on your coinsurance) will be determined by the hospital's Benefit Level. In other instances, you may receive separate bills from doctors, surgeons and other providers who cared for you. When this happens, your portion of the bill will be determined by the Benefit Level of the provider. For example, your doctor may be Benefit Level 1, your surgeon Benefit Level 2 and your hospital Benefit Level 1.

** All specialties at the Mayo Clinic Rochester fall into Benefit Level 2.*

Frequently Asked Questions

What determines a provider's benefit level?

Network providers and facilities are placed in one of two tiers, each tier differing in what your copay and coinsurance are. Providers and facilities with the lowest total cost of care and the highest quality scores are placed in Benefit Level 1. Providers and facilities that do not meet the total cost of care and/or quality thresholds are assigned to Benefit Level 2.

Provider quality is measured in several ways. These include successful outcomes of care, use of best practices for treating patients, and patient satisfaction. The quality measures are comprehensive and include patient-reported results.

The total cost of care reflects not only the fees charged by providers and facilities, but how efficiently and effectively they provide care.

Isn't the quality of health care the same everywhere?

The quality of care varies among doctors and hospital. Measurements of health care quality are relatively new. Quality measures include whether the care you receive results in good outcomes, whether doctors use state-of-the-art "best practices" for treating patients, and how satisfied patients are with the care they receive.

You can find many measures of the quality of clinics and hospitals online at **healthpartners.com**. For example, you can see the ratings on whether doctors provide the recommended optimal care for diabetes and heart disease, whether they give patients advice on staying healthy, and much more. You can also learn if patients would recommend their clinic to friends or family, whether they are satisfied with how easy it is to see their doctor, waiting times in the clinic or for an appointment, and more.

Care outside the Distinctions Open Access Network

When you receive care from a doctor or clinic in the Distinctions plan, your care is considered “in-network.” If you receive care from a doctor or clinic not in this plan (except in urgent or emergency situations), your care is considered “out of network.” Depending on the benefits offered in your group, out-of-network care may not be covered or may be covered at a lower level.

To learn about your specific benefits, consult your plan documents or log on as a member at **healthpartners.com**. You can also call Member Services.

You can learn the benefit level for each doctor, clinic and hospital in two ways

In this directory

The benefit levels of each doctor, clinic and hospital are indicated in this directory. The benefit level of each specialty in a clinic is indicated by one or two dollar signs (\$ or \$\$) in the “Network providers” section of this directory. Doctors listed within those specialties have the same benefit level as the specialty.

The benefit level for hospitals are indicated with one or two dollar signs (\$ or \$\$) in the “Hospitals” and “Outpatient Surgery Centers” section in this directory. Outpatient Surgery Centers fall into Benefit Level 1.

It’s a good idea to find a personal doctor

Even though you don’t need to pick a doctor or a clinic in this plan, it’s a good idea to develop a relationship with a doctor you trust and feel comfortable with. A personal relationship with a doctor is at the heart of good care and good health. That’s why we encourage you to choose a personal doctor from one of the primary care specialties (family practice, general practice, internal medicine and pediatrics) who gets to know you and your health history. This doctor can provide much of your care and work with specialists if you need special care. It can help to have an expert orchestrate your care in the often complicated health care system.
