

Community Health Services Advisory
Committee Social Determinants of Health
Discussion
4-1-2015

1. What are social determinants of health? (write examples)
2. Play Video example
3. What are the social and economic conditions that were named by Chad and Jeff?
4. What were the social and economic conditions that you grew up with? Take a moment and write them down.
5. Pair up with a neighbor. Describe your experiences to each other. Were there similarities, differences? Can a few people highlight what you learned?
6. What systems influenced your experiences that you just described?
7. Review the Community Health Improvement Plan-Social Determinants of Health information.
8. Based on what you heard, are these the appropriate objectives and strategies to focus on in Ramsey County? Are there additional topics you would add?
9. What resources from the community are you aware of that could help SPRCPH address Social Determinants of Health to create more health equity?
 - a. People, organizations, learning tools
 - b. Are there people or systems that need influencing?
 - c. Who else should be involved?
10. What recommendations do you have to continue our learning process and taking action?
