

PaperCut Public BYOD / Mobile Printing user guide for iOS / Apple mobile devices

1. Access **Settings** > **Wi-Fi** and select **RamseyCountyPublic wi-fi**

2. Read and **Accept** the Ramsey County Public Wireless Attestation page

3. Scan **QR code** or the enter the below **web address** in Safari browser for PaperCut client set up:

<https://qr2.mobi/MobilePrintingiOS>

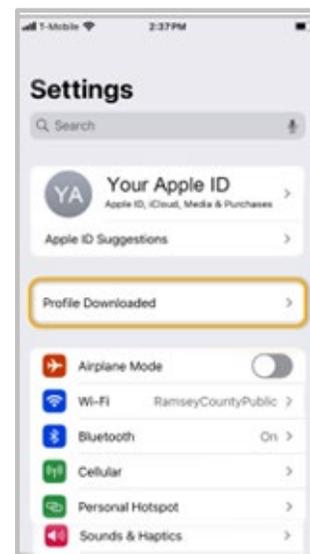

4. This will bring you to the set-up page, click the green **Download** button.

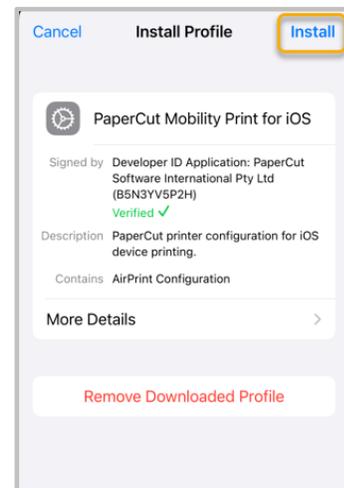

5. Next you will be guided to install the PaperCut profile. To complete this step, access the profile under the **Settings** app in your iOS device.

Select **Profile Downloaded**

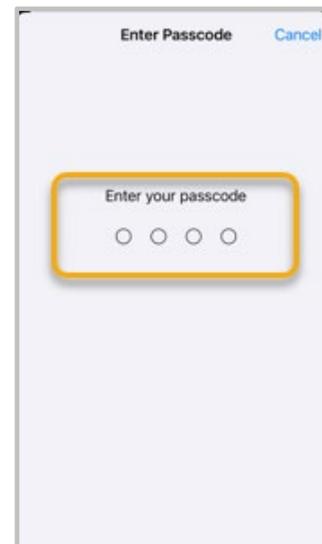

6. Click **Install** located in the top right-hand corner.

****By installing this Profile on your personal device, you are permitting your device to connect to the Ramsey County Service Center printer. This does not exchange any of your personal data on your device such as files, contacts, pictures, etc., except the documents you select to print. You can uninstall this profile at any time after you release your print. Please see the last page under the Optional step for the uninstallation instructions.***

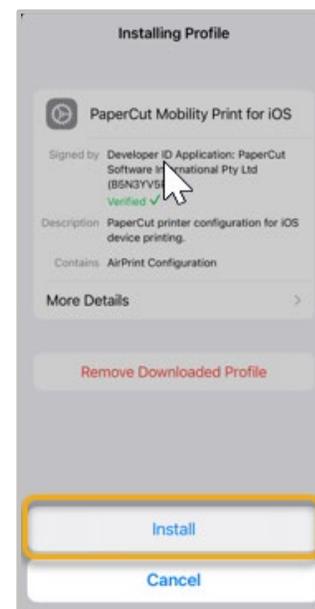

7. If your device has a security passcode, it will ask you to enter that to complete the install.

If your device does not have a security passcode enabled, you can move onto the step 8.

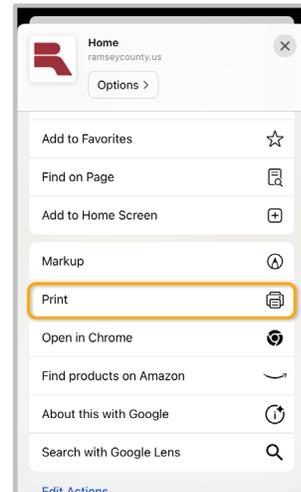

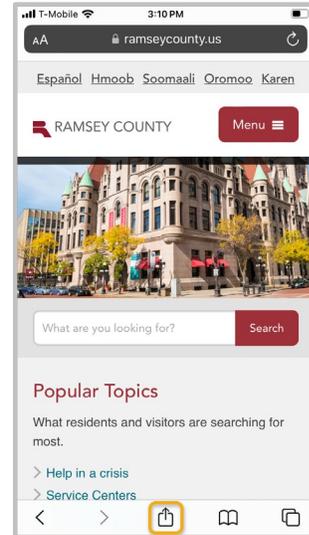

8. Press **Install** on the bottom of the screen and then press **Done** to complete the install.

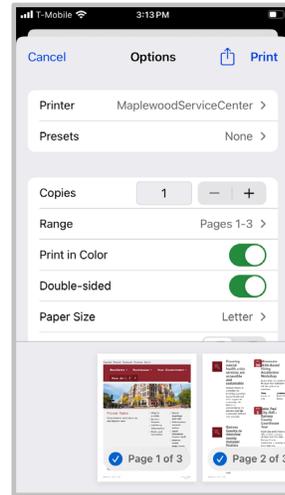

To start printing from your device, follow the below steps.

9. On your device find the file, document, or web page you want to print and select the **arrow at the bottom of the screen** which will populate options, scroll to bottom to select **Print**

(Example provided is printed from a website.)

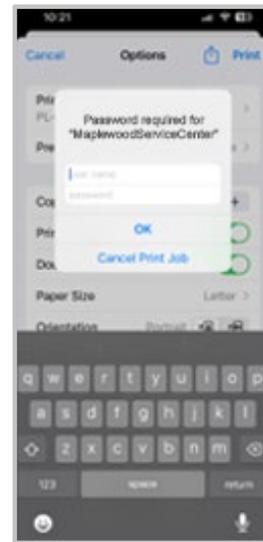

10. Click **Printer** to see and select the Ramsey County Service Center printer based on your location

11. Enter the **Username** and **Password** from the Ramsey County Guest Print Pass.

If you do not have a Guest Print Pass, please ask one of the Service Center Navigators.

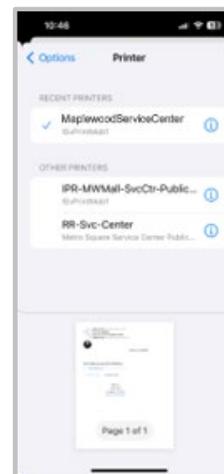

12. Select the **Service Center printer** for the location you are at.

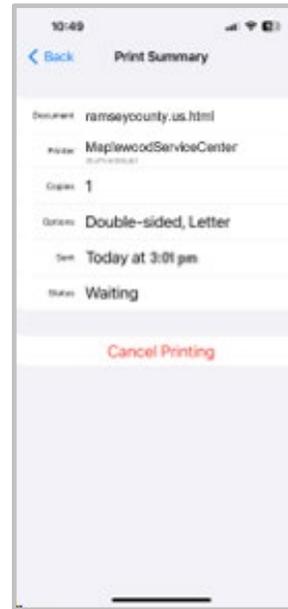

For printing at Metro Square Service Center select: **MetroServiceCenter**

For printing at Roseville Service Center select: **RosevilleServiceCenter**

For printing at Maplewood Service Center select: **MaplewoodServiceCenter**

13. Receive a summary from of your print output as confirmation

Optional:

14. To remove this profile from your device after printing, go to **Settings** and select **Remove Downloaded Profile**
